To: Yaqi Zhang <yaqiz@stanford.edu>

Hi Yaqi,

I'm fine and you have my approval.
Congrats! All the best!

>> >
>> > Each file that students upload must be a communication thread between your Stanford email and the reading committee member's Stanford email accounts (or their primary work email). The email thread should clearly state the reason you are requesting a written email approval, due to the shelter in place, and include the reading committee member's response. Each file should contain the individual written approval of the committee member that you entered next to the Choose File button.

I really apologize for the short window for you to review it as I'm still working towards refining the details. Unfortunately, this would a hard deadline for me as an international student because I need to confer my degree on time to avoid issues related to legal status and working authorization.
